

RESTART Your Life / RENEW Your Mind

ADVOCACY

In recent years, brain injury has reached new levels due to the high amounts of awareness and publicity in our society. RESTART is committed to being an advocate for all survivors of “The Hidden Injury”. We have been attending increased numbers of events such as Brain Injury Assn of PA Conferences, Brain Injury Assn of DE, Hospital of University of PA Awareness Day, and Brain Injury Awareness Day on Capitol Hill where we met with Federal Congressional members lobbying them for their involvement and support. RESTART has also donated to the Bryn Mawr Rehab Support Group regularly. Are you a member of any support group we have not yet spoken too? Contact us to set up an appointment to see how we can help you
